DR. MARTIN'S Compound Syrup of Wild Cherry. MIIS Compand is one of the best remedies ever offered to the public in Coughs, whether arising tran Colds, or the Whooping Cough, of that dientful maindy, Consumption. Few remedies, in the short time it has been before the public, have effected so many cures The proprietors are every day receiving orders for it at a distance, an in this city, in which they have been highly gratified to learn its good effects. The Bishop of the Protestant Episcopal Church of Mary land, (the Rt. Rev. W. R. Whitingham,) has authorized us to say b has used it in bis own person with decided benefit; and our medica friends do not scruple to recommend it as one of the best remedies in Consumption, Bronchitis, Asthma, &c., which they have ever me with. The following is from a highly respectable Physician on Kent Island, whom we made acquainted with the preparation; Kent Island, (Md) June 22, 1847. Dr. Martin-Dear Sir :- Since my return home, I prescribed your Syrup of Wild Cherry in several cases; one in particular, a case of Asthma of long standing, (about 21 years,) a neighbor and patient of mine. The disease has neverbeen benefitted by any Medicine which she has taken, and for the last year or two she has been confined entirely to the house. I do not know that she has had a good night's rest for a long time, but since she commenced taking your medicin (and she has only taken one bottle,) she is enabled to go to bed and sleep well all night. I think the medicine will make a perfect cute of her, and she is determined to give it a fair trial. Her husband Mr. Rhoderick Earickson, is a merchant here, and says if you will send

"HE attention of the public is respectfully invited to this newly invented apparatus. The object for which it is intended is perfectly to preserve corpes from decay for any length of time, without being any wise offensive to delicacy, or unscemly in appearance. The value of such a machine cannot be estimated but y those tender feerings which long for the preservation of a departed friend; and among those who have been compelled to use it on account of the fast decaying of their friends, a general and pleasing satisfaction has been given; for cone can speak too highly of such an important and useful invention. Benevolent institutions and all others who desire to delay funerals until the arrival of distant relatives, or to make suitable preparation for interment, can, by use of this machine, preserve them for weeks in a perfectly inoffensive state, allowing all to gaze upon them.
